

Uncompromising safety
in a world filled with compromises.

Katmai pictured with optional 29 inch Bushwheels

***Give us a call to schedule your demonstration
flight or request a Katmai video brochure.***

Combine the rugged Katmai's stall resistance, slow speed safety, maneuverability, and superior short-field performance with the proven BRS airframe recovery parachute and you are flying the world's safest airplane....all this in an airplane that cruises up to 150 knots while surrounding you and your passengers in luxury, and uncompromised safety.
